Volunteering

Digital Literacy Tutor

Neil Squire Society

DEVELOPMENT EXPERIENCE

Web Developer

Personal Projects (github.com/jonro2955)

Jan 2021– Present | Remote

- Built over 25 sample web applications using various technologies including React, JavaScript, CSS and HTML, such as [My Movie Database](#) and [My PC Store](#)
- Designed and implemented numerous responsive front ends using both pure CSS and CSS preprocessors like Sass
- Contributed to an open source project with approximately 600,000 users
- Demonstrated ability to use established programming paradigms and patterns
- Developed the ability to use various graphic design and video editing software to achieve design objectives

EMPLOYMENT

Code Instructor

Code Ninjas

Nov 2022 – Present | Richmond, BC

- Taught children of ages 7-14 to code their own video games in various computer languages
- Quickly mastered technical material through deep study and analysis
- Demonstrated clear, logical, and open communication for effective teaching and collaboration
- Demonstrated leadership and self awareness to successfully manage groups of children
- Successfully managed both group and individual remote work

Web Designer

Burnaby Neighbourhood House

Aug 2021 – May 2022 | Hybrid

- Redesigned a program website with SEO to increase its web traffic by 320%: <https://www.literacynowburnaby.ca/>
- Developed features using HTML, CSS, JavaScript and PHP to satisfy custom user requirements
- Assisted in social media coordination of 8 volunteers to increase followers by an average of 58%
- Created content that generated thousands of engagements
- Monitored server/host environments to troubleshoot issues and improve performance
